Introduction

Pasco County's Public Access to Permit Applications (PAPA) application is an important component of LEAP (Lean Efficient Accountable Pasco). PAPA is a web based application, providing a single point of access to search and view permitting and inspection information.

The PAPA application provides the following features via the internet:

- Inspection status and results – Provides the ability to obtain real-time inspection status and results
- Quick search for permit and application status
- Provide the ability to obtain information for any permit or application with the ability to search by Street Number, Street Name, Permit Date, Contractor ID, Contractor Name, Status, and Permit Number
- Parcel search – Provides a way to obtain permits and zoning history by parcel number or street name
- County roads – Provides a way to obtain information about county road ways by street name
- Contractor search – Provides a way to obtain information about licensed contractors, searching by contractor name and/or license type
- Reports – Provides a way to obtain various Public Request for Information via the internet, such as inspections by trade, inspections by contractor, permits by contractor, certificate of occupancy reports, sinkhole permits, ROW use permits, and permits by work type
- Service Center – Provides a way to submit a question to County Staff
- Help and System manual – Online system support documentation and FAQ
- Public Survey link where you are able to provide valuable feedback, to help us serve you better

Web Based End-User System Manual- Includes the following sections:

- Inspection Status
- Quick Search for Permits & Applications
- Permits Search
- Parcel Search
- County Roads
- Contractor Search
- Reports
- Service Center
- Help
- Public Survey

For the purpose of the PAPA System Guide, we refer to the various activities in PAPA as functions. Each function identified in the System Guide is accompanied by a window capture and a description of the features and benefits.

The following legend provides a reference for using the PAPA System Guide.

- Window Names, Field Names, Window Buttons, Column Headings, Actions (e.g., **Save**), Combo and Radio Buttons display as **Bold** type
- When referencing a field which displays a *Drop Down Selection List* arrow, the field name is **Bold** type, and the instructional reference(s) is *Italicized* type
- Important information displays as ***Bold Italicized*** type
- Fields with a red * are required entries
- Links are display as Underlined type

Accessing PAPA

You may access the PAPA application in a variety of ways:

I. From a mobile computer device – PDAs, Smart Phones, etc.

- Access the following link http://secure.pascocountyfl.net/bccpapa
- View the available links and make a selection: Inspections Status, Permit Status, and Go to Desktop PAPA

Examples of the PAPA mobile links are displayed below:

II. From a computer device – pc, laptop, etc.

- Left click on the following link http://secure.pascocountyfl.net/bccpapa
- From the Pasco County Home page
    1. Left click on the County Agencies link, located on the menu bar
    2. Left click on the Building Inspections button – the Building Inspections Home page displays. Perform one of the following actions:
        - Left click on the Inspection Status button – the PAPA **Inspection Status – Search** window displays.
          Note: To navigate to the PAPA Home page, left click on the Home link located on the Menu Bar

OR

- Left click on the Try our New on line inspection status system link – the PAPA **Inspection Status – Search** window displays.
  Note: To navigate to the PAPA Home page, left click on the Home link located on the Menu Bar
  OR
- Left click on the One Stop Permitting button – the **One Stop Permitting** window displays. This window provides two ways to access PAPA
  - Under the **Where Do I?** section, under the 7th question, left click on the Public Access to Permit Applications (PAPA) link
    OR
  - Under the **Online Tools and Maps** section, left click on the Public Access to Permit Applications (PAPA) link

The above option you choose, determines the navigational path(s) required to access the PAPA application. The following pages provide window captures of the various access methods documented above.

Accessing PAPA using the Inspections Status link

From the Pasco County Home page, access the PAPA application, by left clicking on the County Agencies link, located on the menu bar, as indicated below.

WELCOME to Building Inspections
Try our New on line inspection status system, inspection results are on-line within 15 minutes of inspection completion. Inspection requests will be available on line in the near future, the OPAL system should continue to be used at this time for inspection requests.
FY 07/08, the Building Inspections Division is responsible for the health, safety, and welfare of the citizens of Pasco County as related to the construction industry. The Division reviews plans for all proposed new construction and alterations and conducts onsite inspections for conformity to established codes and County ordinances. The Division is also responsible for the issuance of Certificates of Competency to all construction trade workers within the County and verifying their conformity to State licensing requirements. Complaints regarding unlicensed contractors, unpermitted work, and substandard practices within the construction industry are investigated by the Division. Enforcement is implemented through posted notices, citations, and orders from the Construction Licensing Board and/or Construction Code Enforcement Board.
Interaction with the construction community has become a priority. Along with sponsoring and providing required continuing education, Building Inspections conducts town center meetings with various trade groups, conducts onsite seminars for superintendents and subcontractors, and provides review of policies and codes during subcontractor gatherings held in the County Commission Board Rooms.
Building Inspections Division provides courteous, effective, and efficient review and inspection of building construction and related activities.

WELCOME to One Stop Permitting
Are you a developer, homeowner, business owner, contractor or other professional engaged in a building project? Do you need to know who to talk to and when to talk to that person/group in regards to your project? One Stop Permitting is a one-stop shop that ties together the facts, tools, and resources that most customers will need to carry out a building project.
If you don't find what you need, contact us to let us know as we will be working on improving this site in the next few months. We have already begun the process of evaluating our internal development approval processes and re-writing the Land Development Code (LDC). We want to keep you informed and involved during this process. Click here for the latest updates.
Where Do I?
File a zoning application?
Zoning Applications are filed with Zoning.
File a site development application?
Site development applications are filed with Permits & Development Information.
File a building permit application?
Building applications are filed with Central Permitting.
Who do I get the status/results of an inspection?
Use our on line inspection status and results system Public Access to Permit Applications
Get an Inspection Request
Schedule an Inspection with Building Inspections.
Get a listing of Contractors who are licensed to work in Pasco County?
A list of contractors who are licensed by Pasco County can be obtained by contacting Contractor Licensing at:
From the Westside: (727) 847 - 8009
From the Eastside: (352) 521 - 4274 x 8009
From the Central county: (813) 996 - 7341 x 8009
Perform a records search to obtain information about Licensed Contractors, Building Permits, Zoning Petitions, Site Development Projects, or Road Maintenance?
You can perform a records search in the Pasco County BCC Record Search application or preview the new system Public Access to Permit Applications (PAPA)
Perform a property records search by Parcel ID, Name, Recent Sales, Official Record Book/Page, Interactive Maps, or Physical Address?
You can perform a property records search in the Pasco County Property Appraiser's Record Search application.

Working with the PAPA Home page

The PAPA Home page provides access to the following links:

- Inspection Status
- Quick Search for Permits & Applications
- Permits Search
- Parcel Search
- County Roads
- Contractor Search
- Reports
- Service Center
- Help

Let's discuss the links you'll be working with in PAPA. A hyperlink is a colored and underlined text or a graphic that you click to go to a field, a table, a location in a file, an HTML page on the World Wide Web, or an HTML page on an intranet site. PAPA uses links for easy navigation within the various PAPA application sessions.

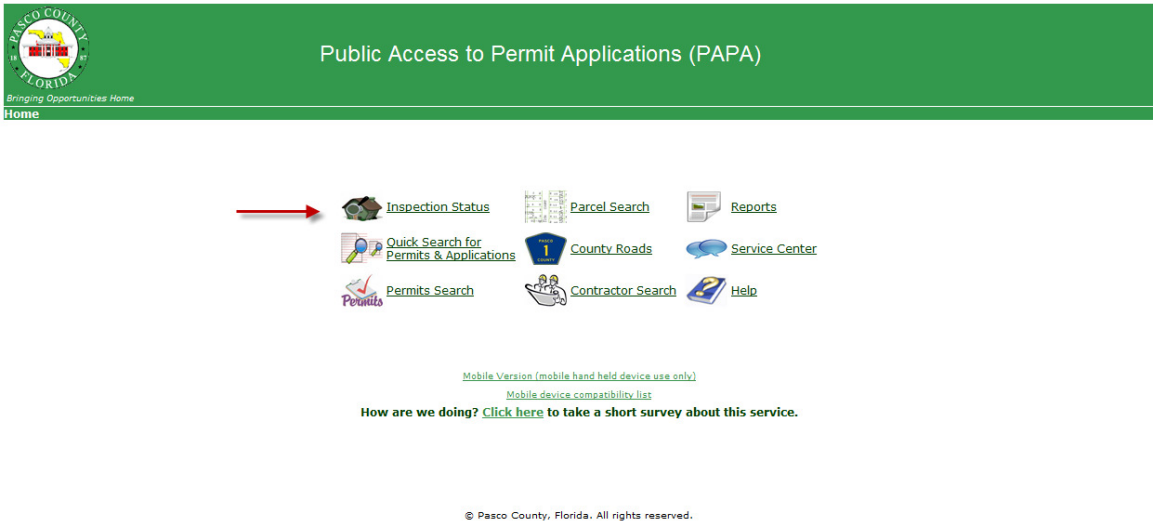
PAPA uses links to provide a consistent pathway to:

- Access PAPA windows, fields, and tables
- Access PAPA viewing features – Examples include:
  - View Road Details
  - View Contractor Details
  - View Status Tips
  - View Permit Type Tips
  - View Category Tips
  - View Status Tips
- Navigation within PAPA – navigating to the next page, navigating to the Home page, etc.
- Access PAPA Help
- Access Pasco County Service Center FAQs (i.e., Frequently Asked Questions)
- Access, View, and Execute PAPA reports
  - Inspections by Trade Summary Report
  - Inspections by Contractor
  - Permits by Contractors Reports
  - CO Summary Report
  - Sink Hole Permits Report
  - Right of Way Use Permits Report
  - Work Type Permits Report

- Export Data to Excel Spreadsheet

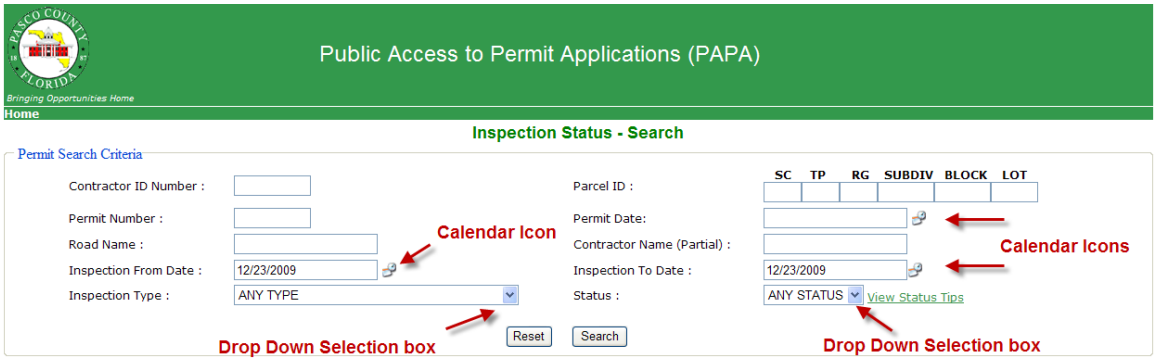
Working with the Inspections Status window

To access the Inspection Status window, left click on the Inspection Status link.



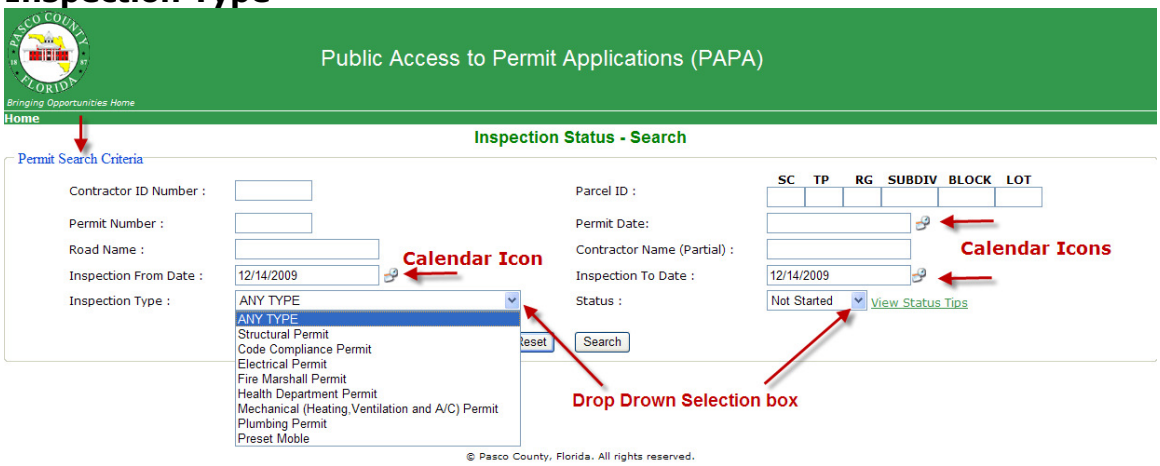
This window allows you to perform inspection searches and inquiries, based upon the following criteria:

- **Contractor ID Number**
- **Parcel ID**
- **Permit Number**
- **Permit Date**
  Left click on the calendar icon to the right of the field to display a calendar and make a selection
- **Road Name**
- **Inspection From Date** and **Inspection To Date**
  Left click on the calendar icon to the right of the field to display a calendar and make a selection.
- **Inspection Type** – make a selection by left clicking on the *Drop Down Selection* arrow - You may select one of the following:
  - ANY TYPE
  - Structural Permit
  - Code Compliance Permit
  - Electrical Permit
  - Fire Marshal Permit
  - Health Department Permit
  - Mechanical (Heating, Ventilation, and A/C) Permit
  - Plumbing Permit
  - Preset Mobile
- **Inspection Status** – make a selection by left clicking on the *Drop Down Selection* arrow – you may select one of the following:
  - ANY STATUS
  - Not Started
  - Started
  - Continue
  - Pass
  - Failed
  - Un Assigned
  - Moved

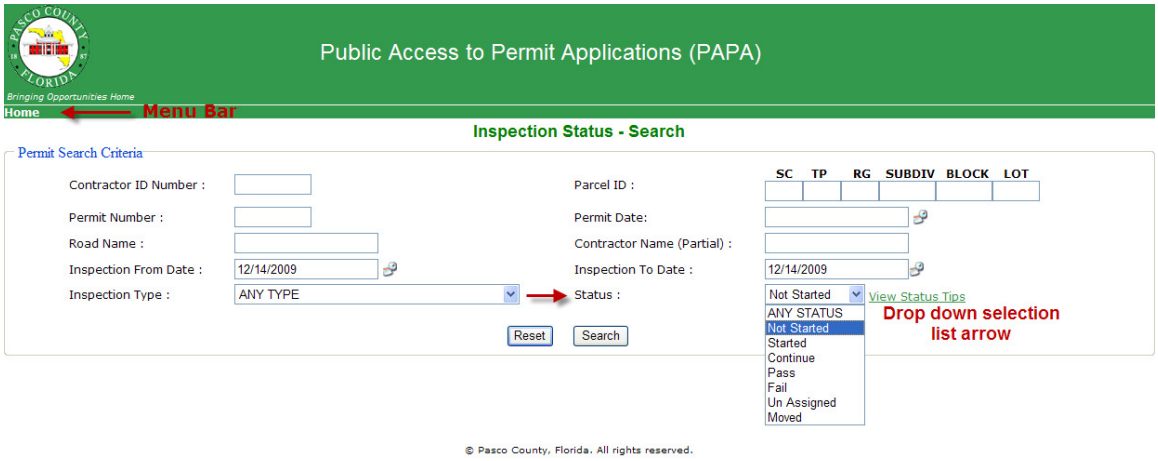


Note: This window allows you to select from a list for the **Inspection Type** and **Status**. View the following examples to see how this feature works.

Inspection Type



Status



Note: *Drop Down Selection List* arrows are available on many of the PAPA fields and function the same way as described above. Once you have entered your search criteria, left click on the **SEARCH** button to initiate your search. The results of your search request are displayed, as shown below:

While files from the Internet can be useful, some files can potentially harm your computer. If you do not trust the source, do not open or save this file. What's the risk?

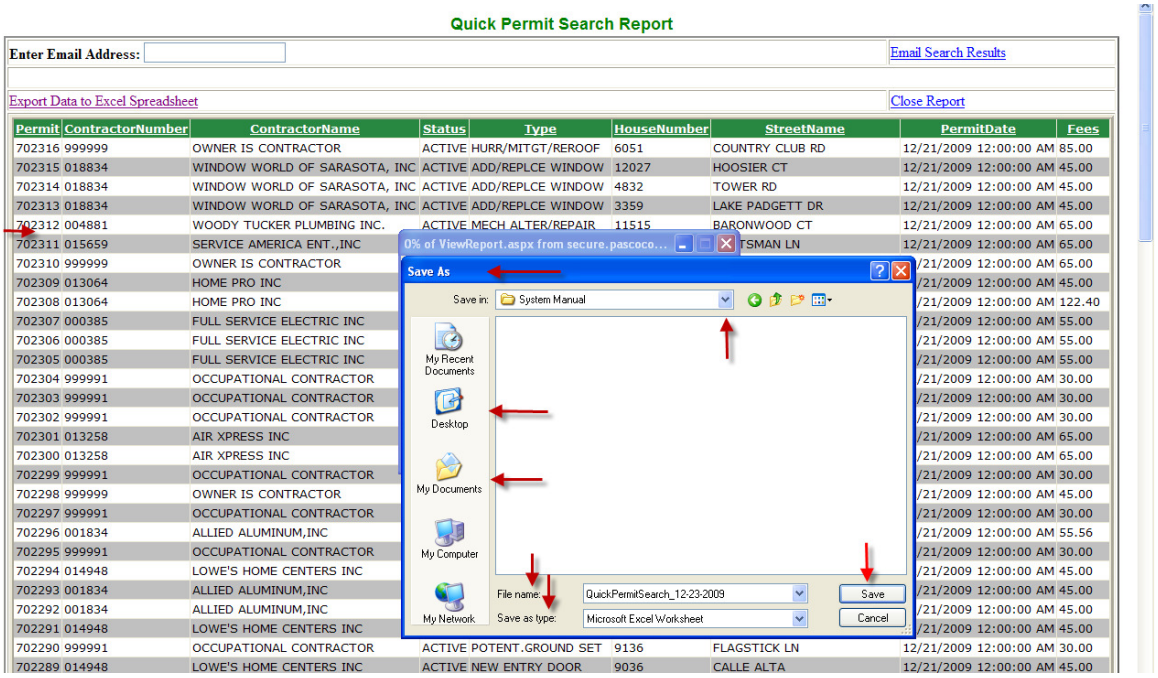
Left clicking on the **Save** button opens the **Save As** dialog window as shown below.

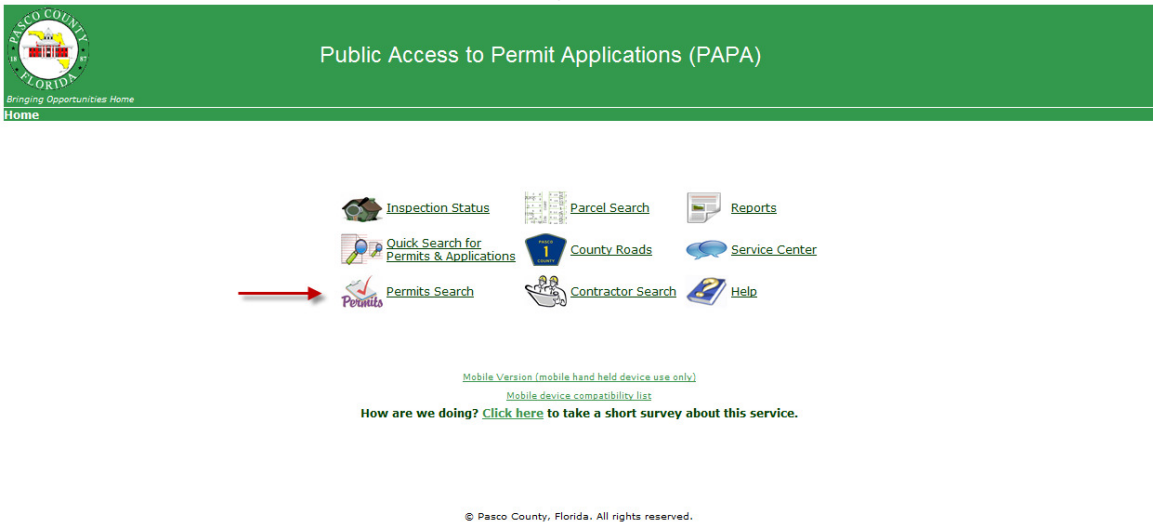


The **Save As** dialog box, allows to specify the:

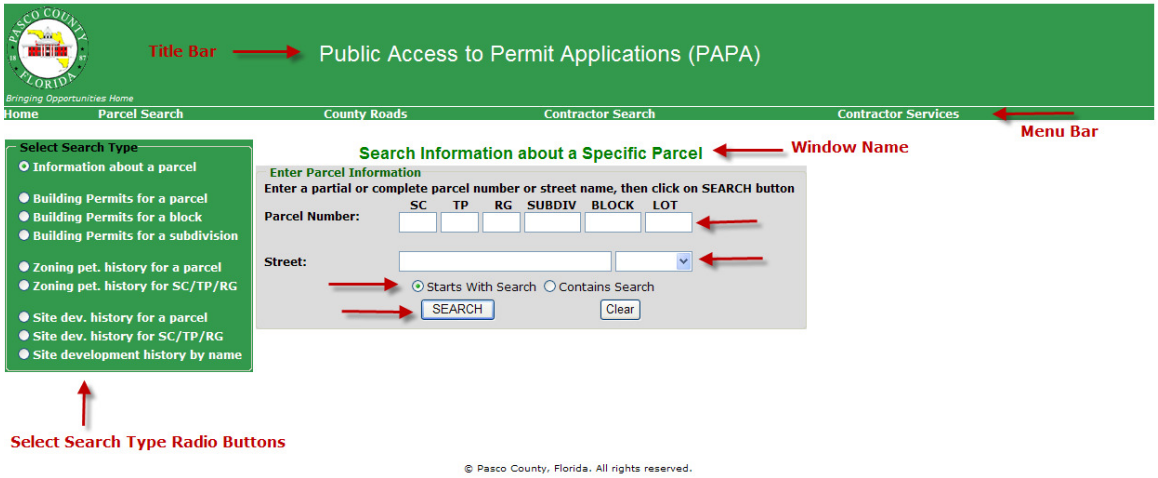
- Save location – Desktop, My Documents, Network drive(s), etc.
- File name – QuickPermitSearch_12232009
- Save as type – Excel, Word, XML, Web Page, etc.

Working with the Permits Search window

To access the Permits Search window, left click on the Permits Search link.

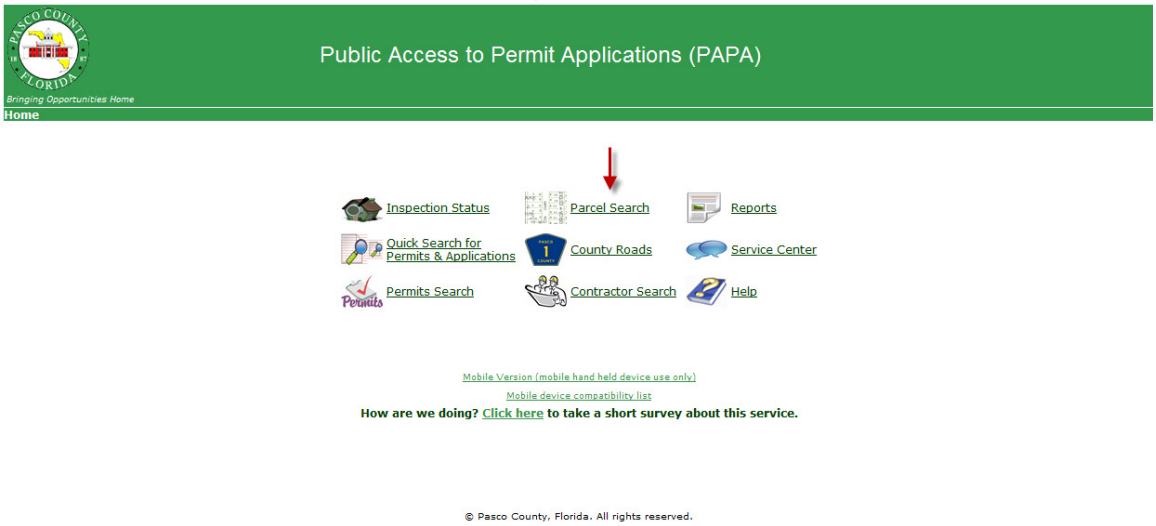


1. Left click the **Select Search Type** radio button to establish the search type – available options are:
   - Information about a parcel
   - Building Permits for a parcel
   - Building Permits for a block
   - Building Permits for a subdivision
   - Zoning pet. history for a parcel
   - Zoning pet. history for SC/TP/RG
   - Site dev. history for a parcel
   - Site dev. history for SC/TP/RG
   - Site development history by name
2. Enter information in the **Parcel Number** and/or **Street** fields
3. Left click on the **Starts With Search** or **Contains Search**
4. Left click on **SEARCH** – the display of your search query displays.

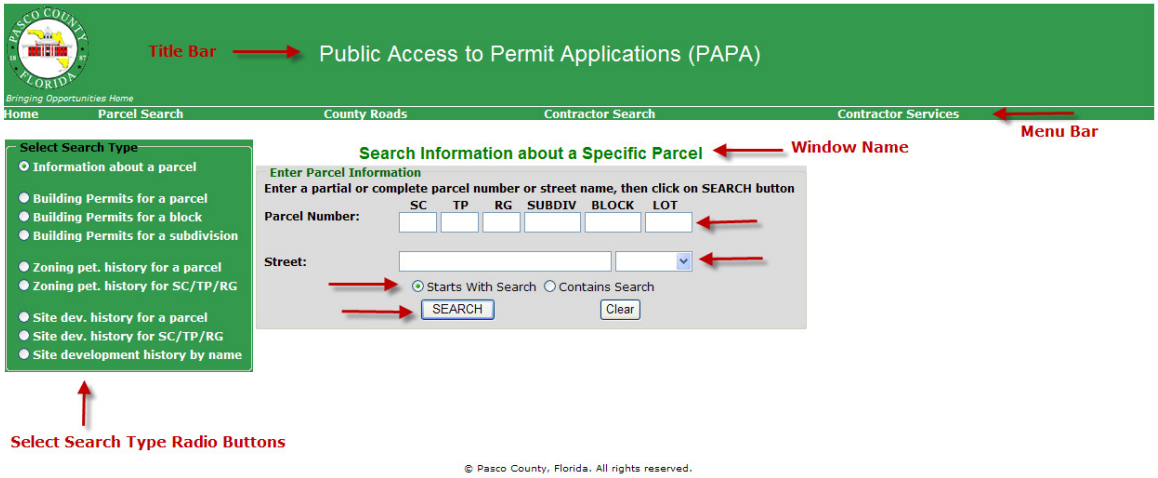


Working with the Parcel Search window

To access the Parcel Search window, left click on the Parcel Search link.

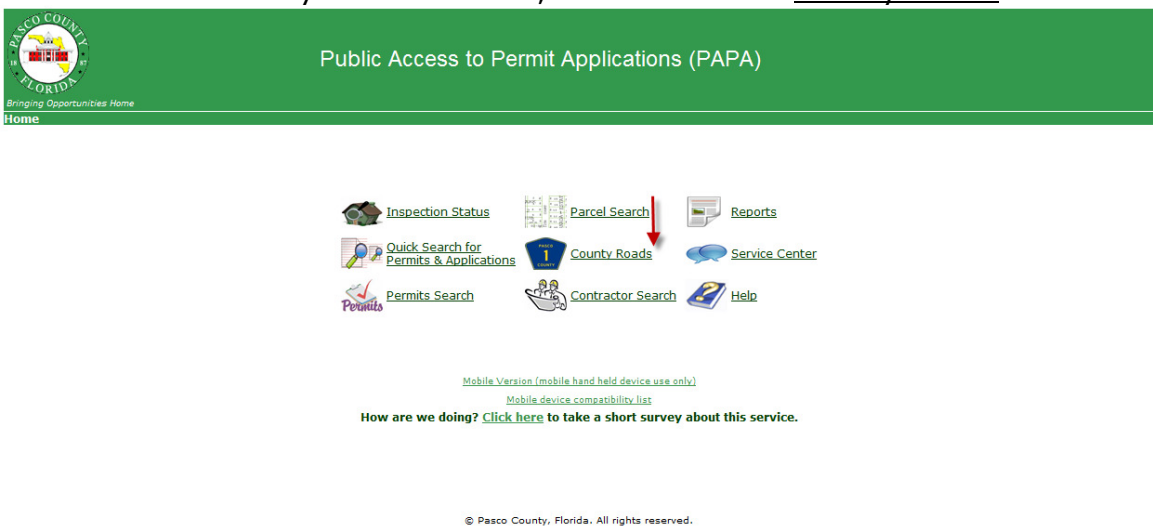


1. Left click the **Select Search Type** radio button to establish the search type – available options are:
   - Information about a parcel
   - Building Permits for a parcel
   - Building Permits for a block
   - Building Permits for a subdivision
   - Zoning pet. history for a parcel
   - Zoning pet. history for SC/TP/RG
   - Site dev. history for a parcel
   - Site dev. history for SC/TP/RG
   - Site development history by name
2. Enter information in the **Parcel Number** and/or **Street** fields
3. Left click on the **Starts With Search** or **Contains Search**
4. Left click on **SEARCH** – the display of your search query displays.



Working with the County Roads window

To access the County Roads window, left click on the County Roads link.



1. Enter a full or partial road name in the **Road Name** field
2. Left click on the **Starts With Search** or **Contains Search**
3. Left click on **SEARCH** – the display of your search query displays

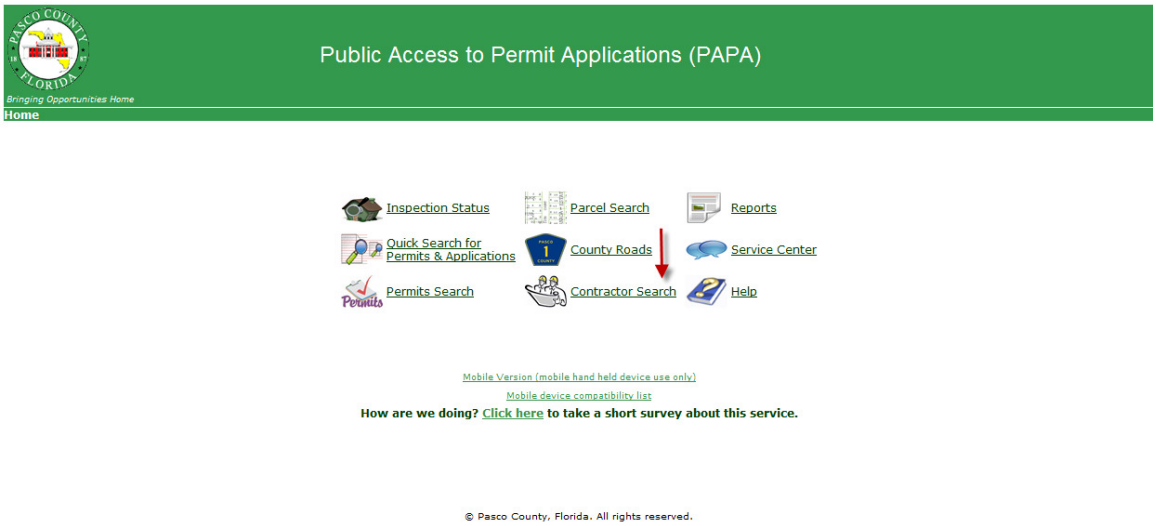
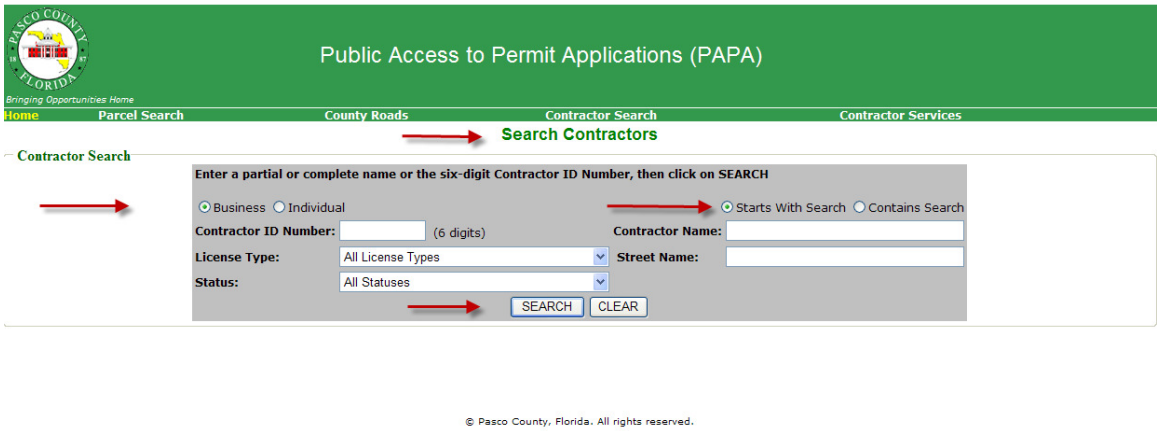
Working with the Contractor Search window

To access the Contractor Search window, left click on the Contractor Search link – the **Search Contractors** window displays

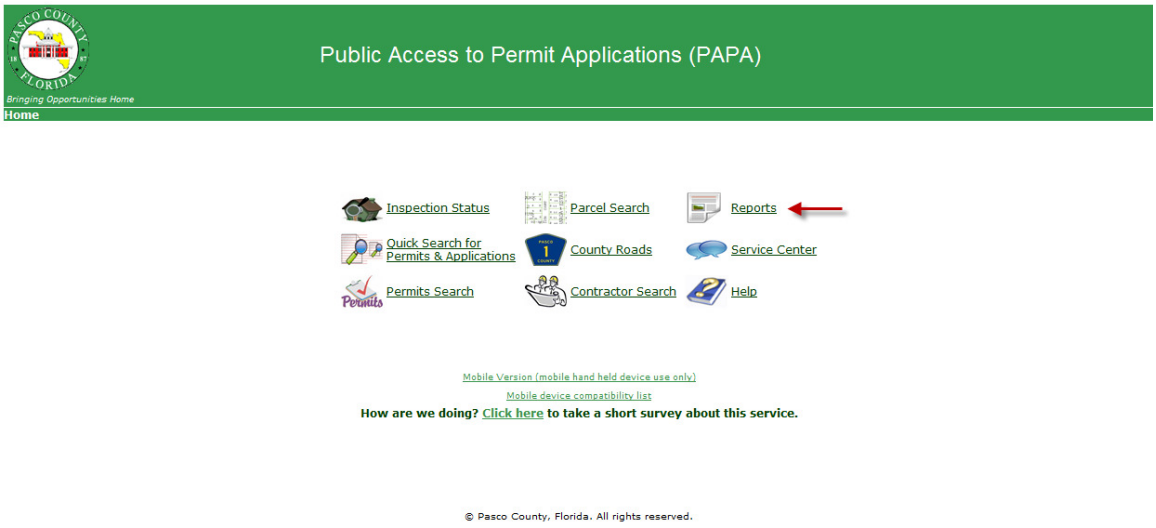


1. Left click on either **Business** or **Individual**
2. Left click on either **Starts With Search** or **Contains Search**
   Note: This feature allows you to search the database without having to enter the entire name.
3. Enter information in one or more of the following fields
   - **Contractor ID Number** (6 digits)
   - **License Type** – left click the *Drop Down Selection* arrow to view a list and make a selection
   - **Status** - left click the *Drop Down Selection* arrow to view a list and make a selection
   - **Contractor Name**
   - **Street Name**
4. Left click on **SEARCH** – the display of your search query displays



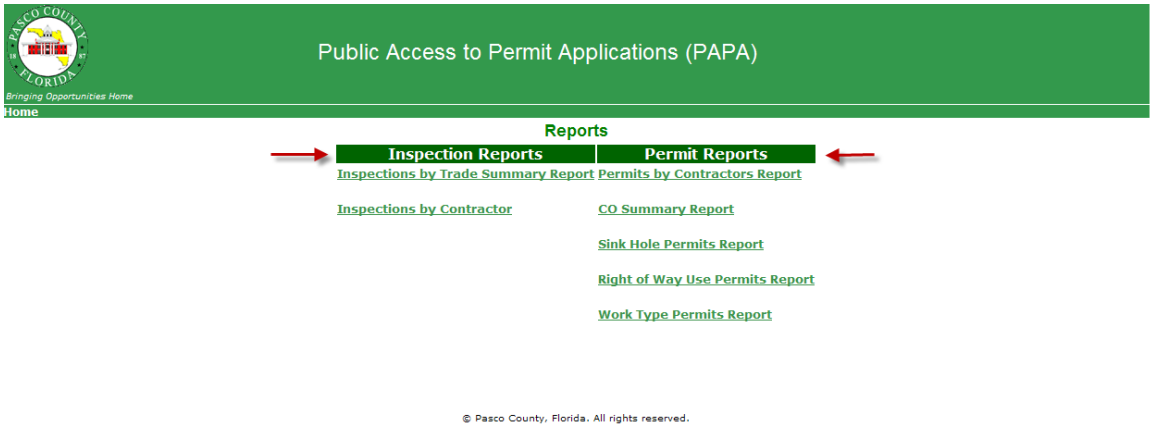
Working with PAPA Reports

From the PAPA Home page, left click on the Reports link.



The PAPA Reports window displays. There are two report categories

- Inspection Reports
- Permit Reports



The report categories and their associated reports are listed below:

- Inspection Reports
  - Inspections by Trade Summary Report
  - Inspections by Contractor
- Permit Report
  - Permits by Contractors Report
  - CO Summary Report
  - Sink Hole Permits Report
  - Right of Way Use permits Report

- Work Type Permits Report

Based upon the report you are working with, PAPA allows you perform searches by:

- Business name or Individual name
- Starts With Search - enter the starting letter(s) of a business name or an individual's name
- Contains Search – enter letter(s) contained within the business name or individual's name

Depending on the report you are working with, PAPA provides the flexibility to:

- Download data to an Excel report format by left clicking on the View Report link
- Export report data to a Microsoft Excel spreadsheet by left clicking on the Export Data to Excel Spreadsheet link
- Email report data using **Enter Email Address** feature

Inspections by Trade Summary Report

Email sent to Jim & VK - There is not a title on the window.
Perform the following steps to access the Inspections by Trade Summary Report:

1. From the PAPA Home page, left click on the Report link
2. From the PAPA Report window, left click on the Inspections by Trade Summary Report link

This report allows you to search inspections by date range. To navigate back to the PAPA Home page, left click on the Home link, located on the Menu Bar. The Home link is consistent with all report windows.

The Inspection by Trade Summary Report link provides information by inspection trade category, as related to:

- Inspection Assigned Status (e.g., Assigned, Un-Assigned, and Moved)
- Inspection Action Status (e.g., Not Started and Started)
- Results of the Inspection (e.g., Continue, Pass, and Fail)
- Total Inspections Processed

3. Left click on the calendar icons next to the **From Date** and **To Date** fields, to enter the date search criteria.
4. Left click on the **Search** button, to initiate your search – This report provides the following inspection data:
    - Trade Name
    - Number of inspections Assigned

- Number of inspections Not Started
- Number of inspections Continued
- Number of inspections with a status of Pass
- Number of inspections with a status of Fail
- Number of inspections Un-Assigned
- Number of inspections Moved
- Number of Total Processed – is the total count of inspections with a status of Continue, Pass, and Fail.

5. Left click on the Home link, located on the Menu Bar to navigate to the PAPA Home page

start
11:59 AM

3. Left click on the **Contractor** *Drop Down Selection List* arrow, to view a list of contractors and make a selection.
   Note: This allows you to curtail your search and limit the amount of data displayed. When multiple pages exist, you may left click on the page number links (e.g., 1 2 3, etc), located on the bottom of the window to navigate from page to page.
4. Left click on the **Start Date** and **End Date** calendar icon, to select a date
5. Left click on the **Search** button to initiate your search
6. View the results of your search request – the following information displays
   - Contractor Name
   - Inspection Date
   - Permit
   - Type
   - Status
   - Address
   - Inspection Notes
   - Continue Notes
   - Fail Reason

   Note: Performing a left click on one of these links changes the visual display to either descending or ascending order.
7. Left click on the Home link, located on the Menu Bar to navigate to the PAPA Home page

Permits by Contractors Report

1. From the PAPA Home page, left click on the Report link
2. From the PAPA Report window, left click on the Inspections by Contractor link – the Contractor Permits Report window displays.

The Contractor Report windows contain the following links located on the Menu Bar:

- Home
- Parcel Search
- County Roads
- Contractor Search
- Contractor Services

Use the Permits by Contractors Report to search permits by:

- Contractor ID Number – 6 digits required
- Contractor Name
- From Date and To Date
- Permit Number
- Permit Status

3. Enter your search criteria
4. Press the **Search** button

The results of your search query display. In the following example we entered a **Start Date** of 12/1 and an **End Date** of 12/21, with a **Status** of ANY STATUS. The results of our search, display total count of 2,339 permits. Left click on the page links (e.g., 1, 2, 3, etc.), to navigate from page to page.

Work Type Permits Report

1. From the PAPA Home page, left click on the Report link
2. From the PAPA Report window, left click on the Work Type Permits Report link – the **Work Type Permits Report** window displays.

Overview - Working with PAPA Reports

Perform the following steps to access the PAPA Reports window, make a report selection, execute a PAPA report, and export report data to Excel.

1. From the PAPA Public Access to Permit Applications Home page, left click on the Reports link – the PAPA Report window displays
2. Left click on the report you want to work with to display the reports main window
3. Enter your search criteria in the available fields
4. Left click on the **Calendar** icon next to the **From** and **To** fields, to view a calendar and select the timeframe period for the report
5. Left click on the **Search** button – the results of your report search criteria displays
6. Left click on the View Report link, to view the report data
7. Left click on the Export Data to Excel Spreadsheet link to export the data to an Excel file – this feature provides you the option of saving report data to an excel spreadsheet

8. Enter the email address in the **Enter Email Address** field and left click on the Email Search Results link. A confirmation message displays ***The Report has been emailed to the provided email address successfully***.
9. Left click on the Home link to return to the PAPA Home page

Overview - Export Data feature in PAPA

Export Data is a sophisticated search tool, which allows users to extract, upload, and view internal data which is not tied to the grid (i.e., the window/page). This search allows the user to convert data from a computer program (e.g., PAPA application) into a form suitable for a different program session (e.g., Microsoft Excel).

This type of search tool provides the user access to all of the data. You can curtail the details of your report by utilizing the customizing features available in Excel. Once the data has been uploaded, the user is able to identify and format the data accordingly.

Perform the following steps to access the Export Data window

1. From the PAPA Home page, left click on the Reports link– the **PAPA Reports** window displays
   Note: Not all PAPA reports allow you extract data. The **View Report** link displays on PAPA windows supporting this functionality.
2. Enter the search criteria in the appropriate fields
3. Click on **Search** – the results of your search query display
4. Left click on the **View** Report link – the File Download Dialog window displays
5. Left click on **Save** – the Save As Dialog displays
6. Determine where you want to save the file
7. Left click on the *Save as type* selection list drop down arrow
8. Left click on **All files** – the Download complete confirmation window displays
9. Left click **Close**

Overview - Working with Microsoft Excel

Microsoft Office Excel is a spreadsheet application written and distributed by Microsoft for Microsoft Windows and Mac OS X. A spreadsheet is the computer equivalent of a paper ledger sheet. It consists of a grid made from columns and rows. It is an environment that can make number manipulation easy and somewhat painless.

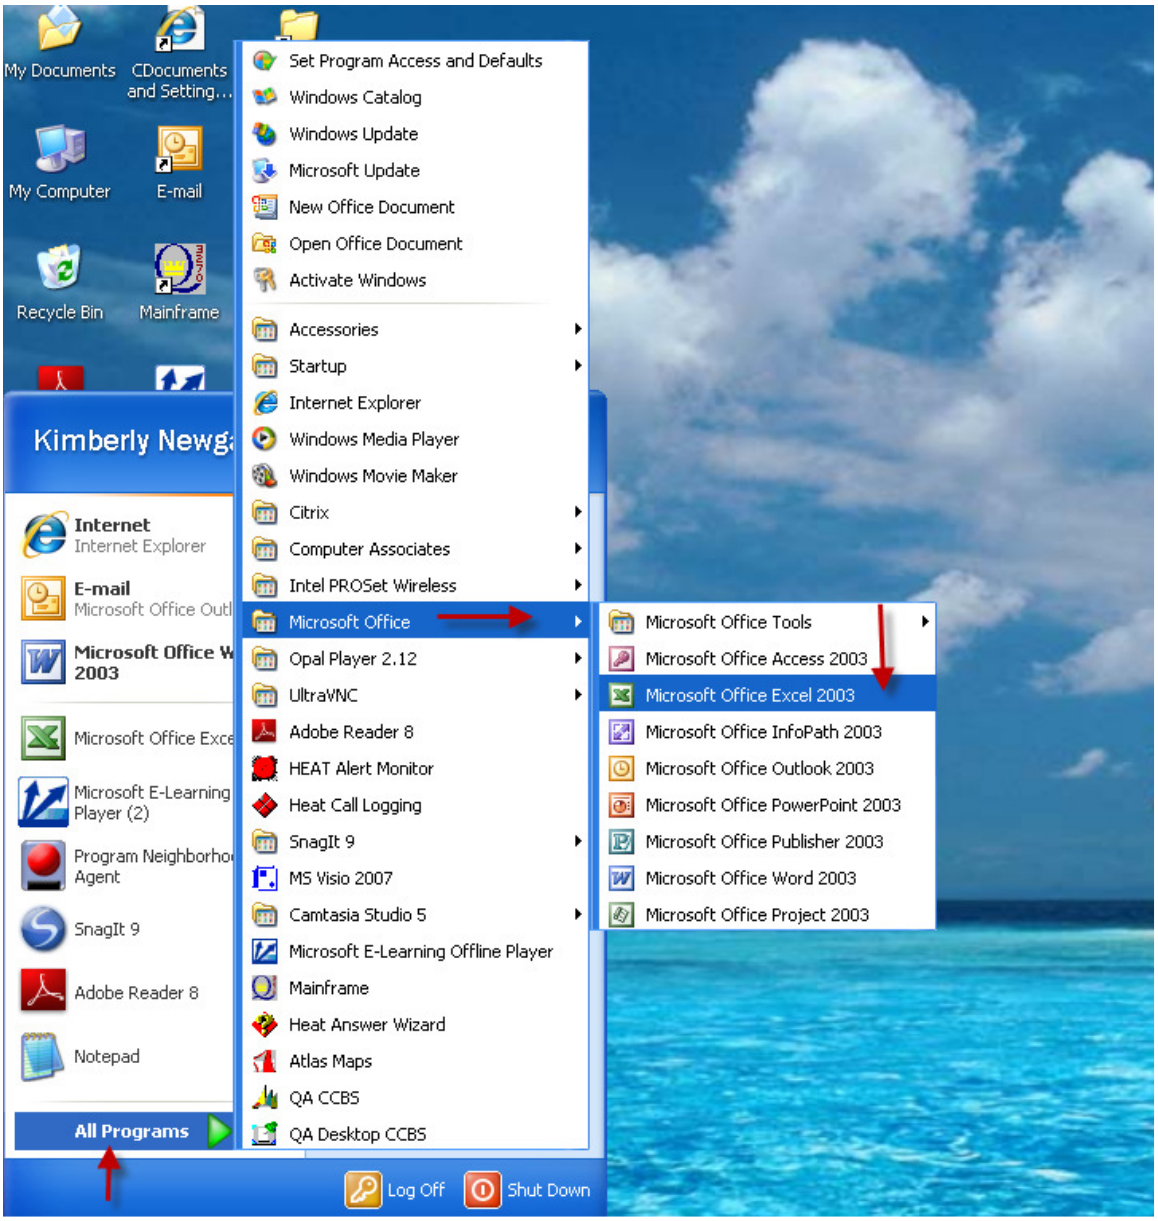
You may access Excel in a variety of ways.

- Left click on the **Start Menu** – go to **All Programs** – go to **Microsoft Office** – go to **Microsoft Office Excel 2003**
- Left click on an **Excel shortcut**

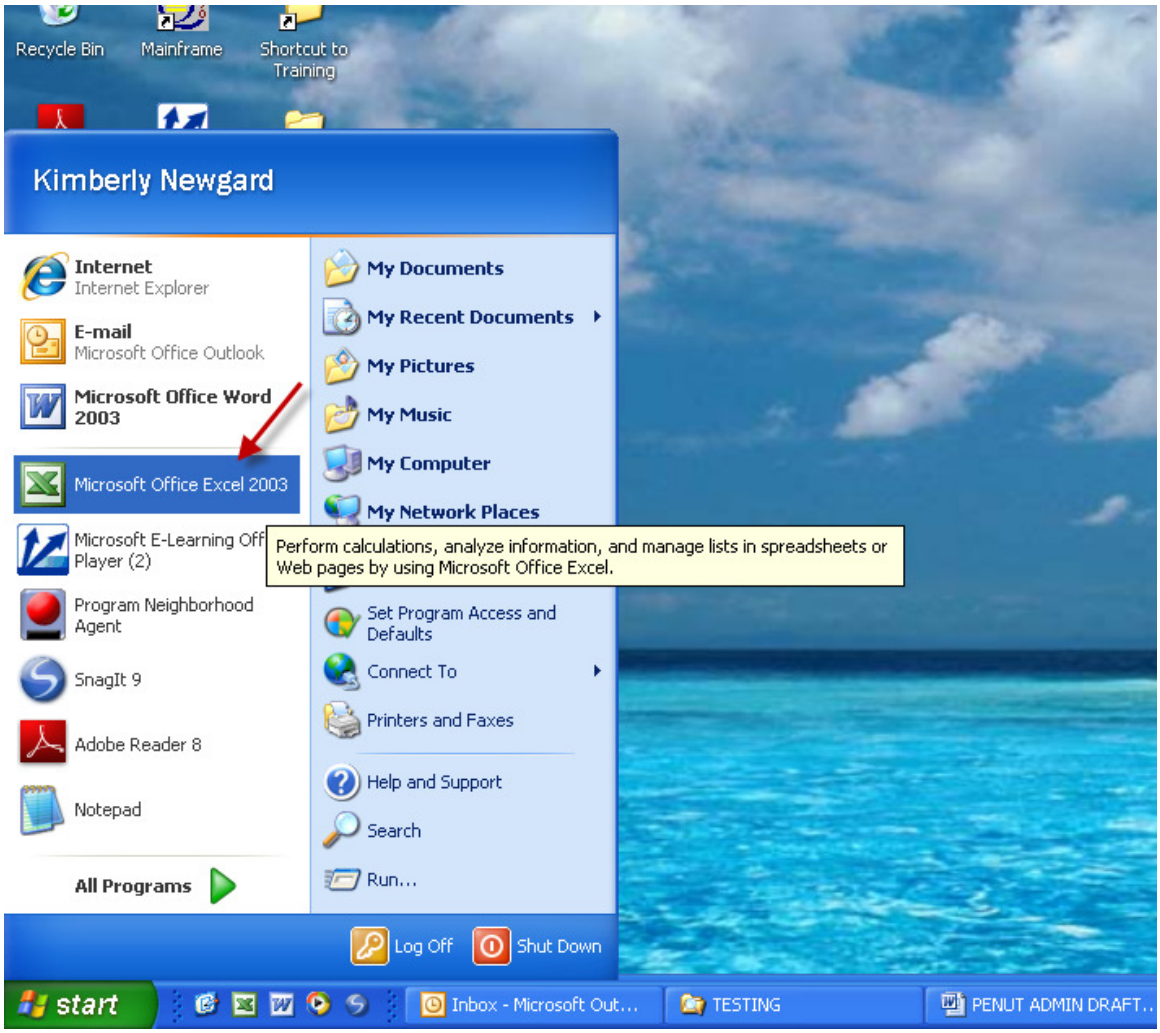
  Note: You may have an Excel shortcut icon available on the Start Menu or your computer desktop

The following examples display the different access methods.

Accessing Excel using the Start Menu – All Programs method



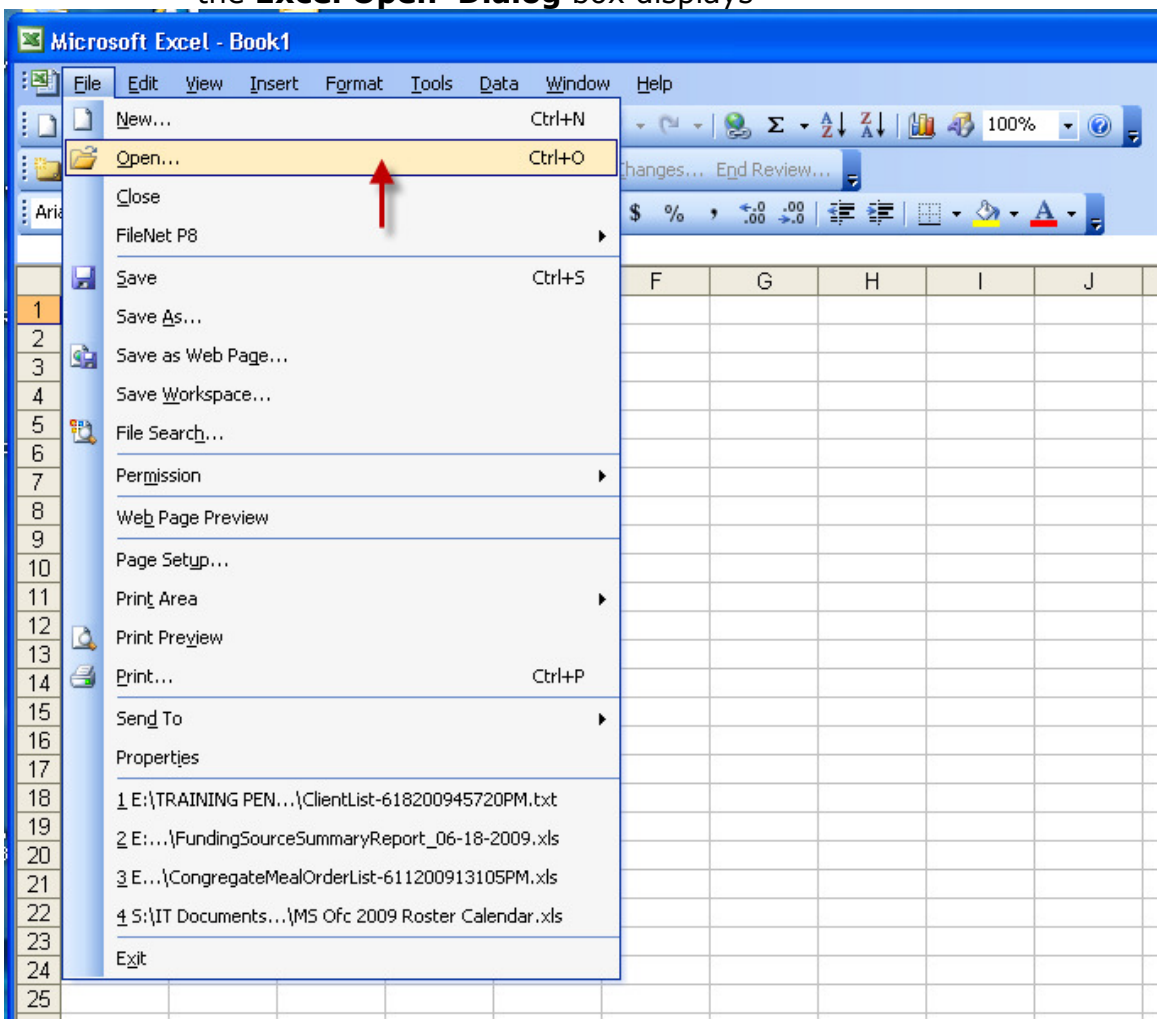
Accessing Excel using a short cut from the Start Menu



Accessing Excel using a short cut from the computer desktop

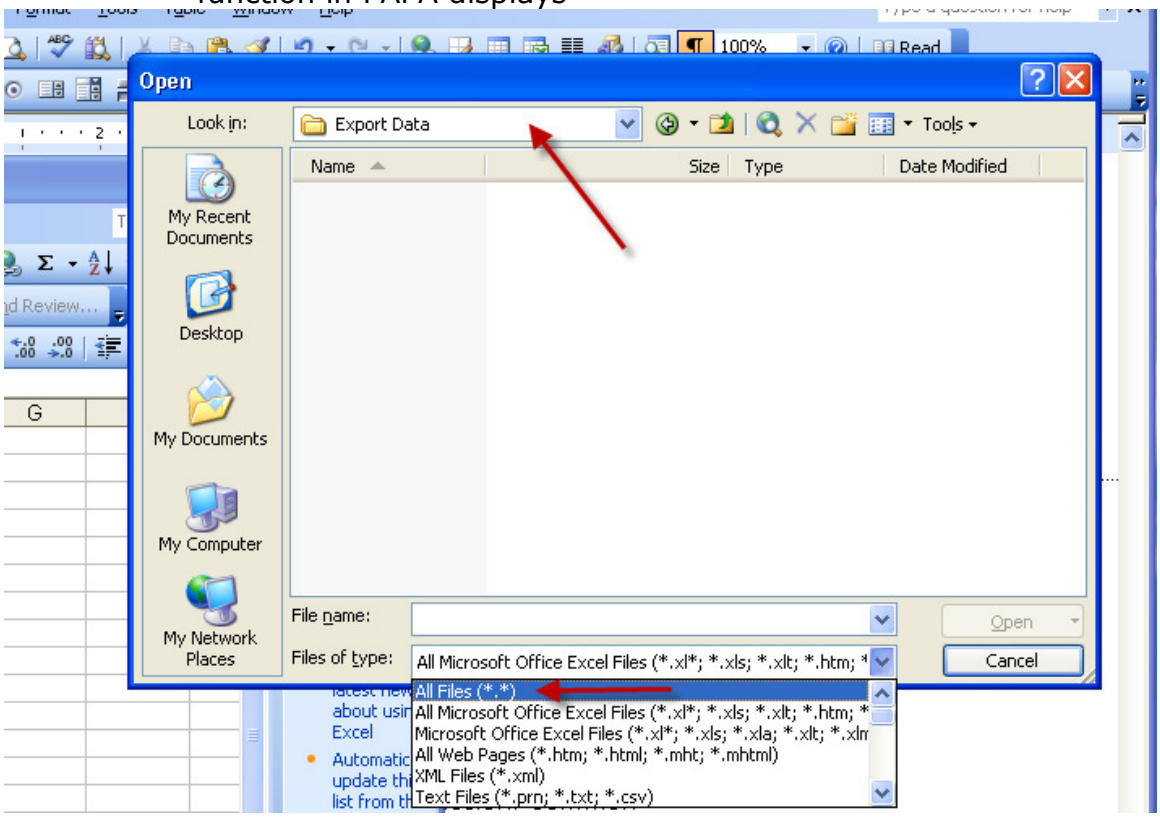
Once you have accessed Excel, perform the following steps to view your report.

1. From an Excel session, Access the File Menu and select Open – the **Excel Open Dialog** box displays



2. Left click on the **Look in** *Drop Down Selection List* arrow, to view available locations (e.g., PC Local C:Drive, and Network H:Drive, S:Drive, etc.)
3. Navigate to the location where you saved the file and left click to open the folder (i.e., in the example the file was saved to the E:Drive - Training PAPA - Testing folder – Export Data folder)
4. Left click on the **Files of type** *Drop Down Selection* arrow and select the file type **All Files (*.*)**

   The report file we exported using the Export Data to Text function in PAPA displays



5. Double click on the file
6. Left double click on the file – The **Text Import Wizard – Step 1 of 3** window displays
   Note: Verify the **Delimited** radio button is selected
7. Left click on **Next** to access step 2 of 3
8. Left click in the **Other** check box
9. Press the **Tab** key to position the cursor in the **Other** (empty) box
10. Press the **Shift** key and the **Back Slash** key (i.e., located above the **Enter** key on your keyboard), to enter the vertical symbol in the **Other** (empty) box **|**

11. Left click on **Next** to access page 3 of 3 of the Wizard
12. Left click on **Finish** to enable customization in Excel

The PAPA report data file is now available in Excel for modification based upon user requirements. Use the horizontal and vertical scroll bars to navigate through the report, to view the data. Use the tools available in Excel to customize your report.

Microsoft Excel contains an extensive Help Feature. You simply click in the Help box and enter text, based upon what you want to do.

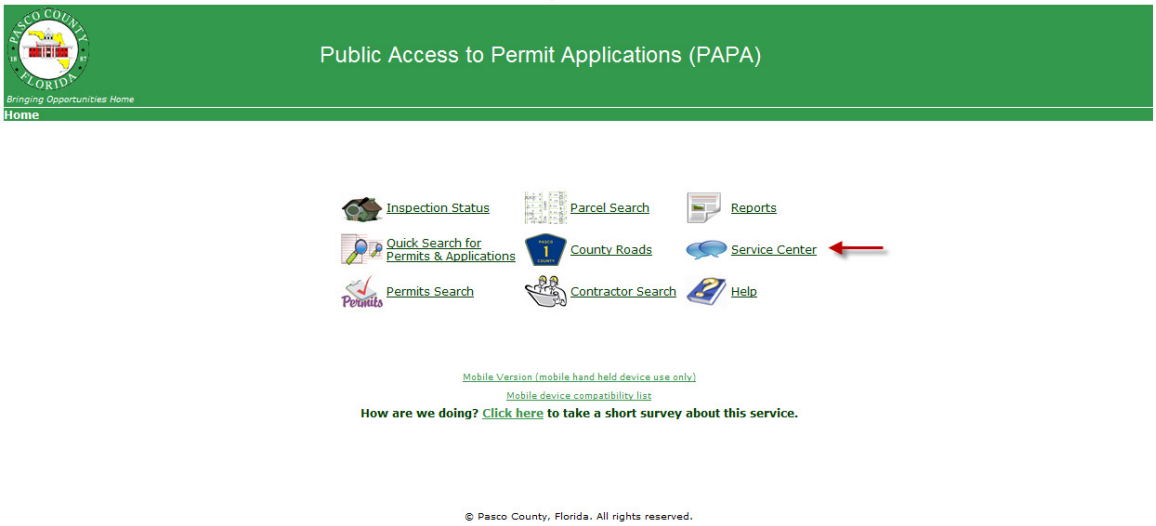
PAPA Support Information

PAPA support is available on the following levels:

- PAPA Service Center link
- PAPA Help link – Accessible from the PAPA Home page

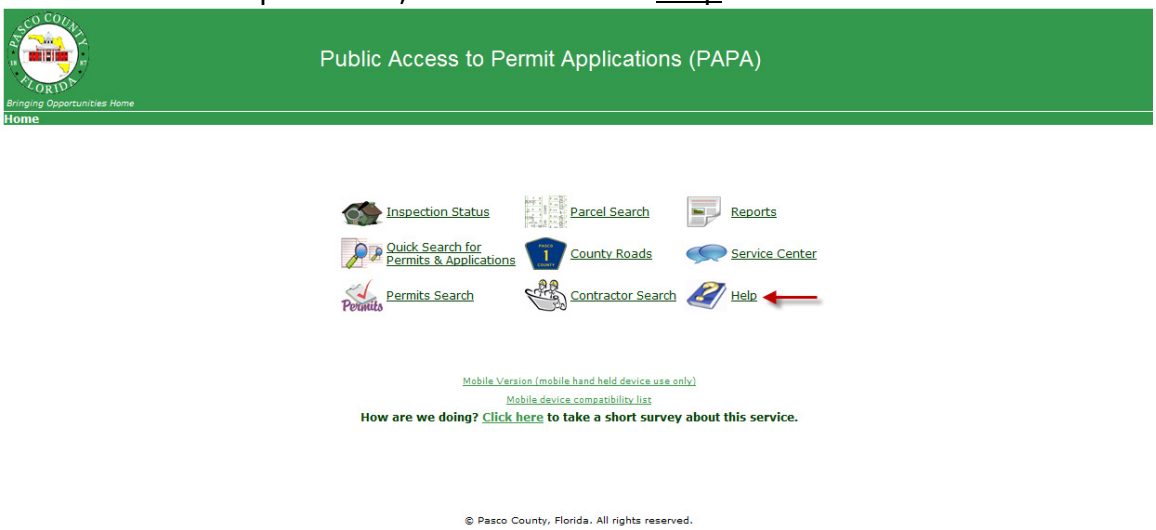
Accessing and working with the Service Center window

To access the Service Center window, left click on the Service Center link.



Accessing and working with the Help window

To access the Help window, left click on the Help link.



- BCC IT Help Desk:
  - Email address ithelpdesk@pascocountyfl.net – network, security, and application support
  - BCC IT Help Desk phone number: x4020 – network, security, and application support
- BCC IT Training Specialist knewgard@pascocountyfl.net

Accessing and working with the Survey window

To access the PAPA Survey window, left click on the **How are we doing?** Click here **to take a short survey about this service** link.

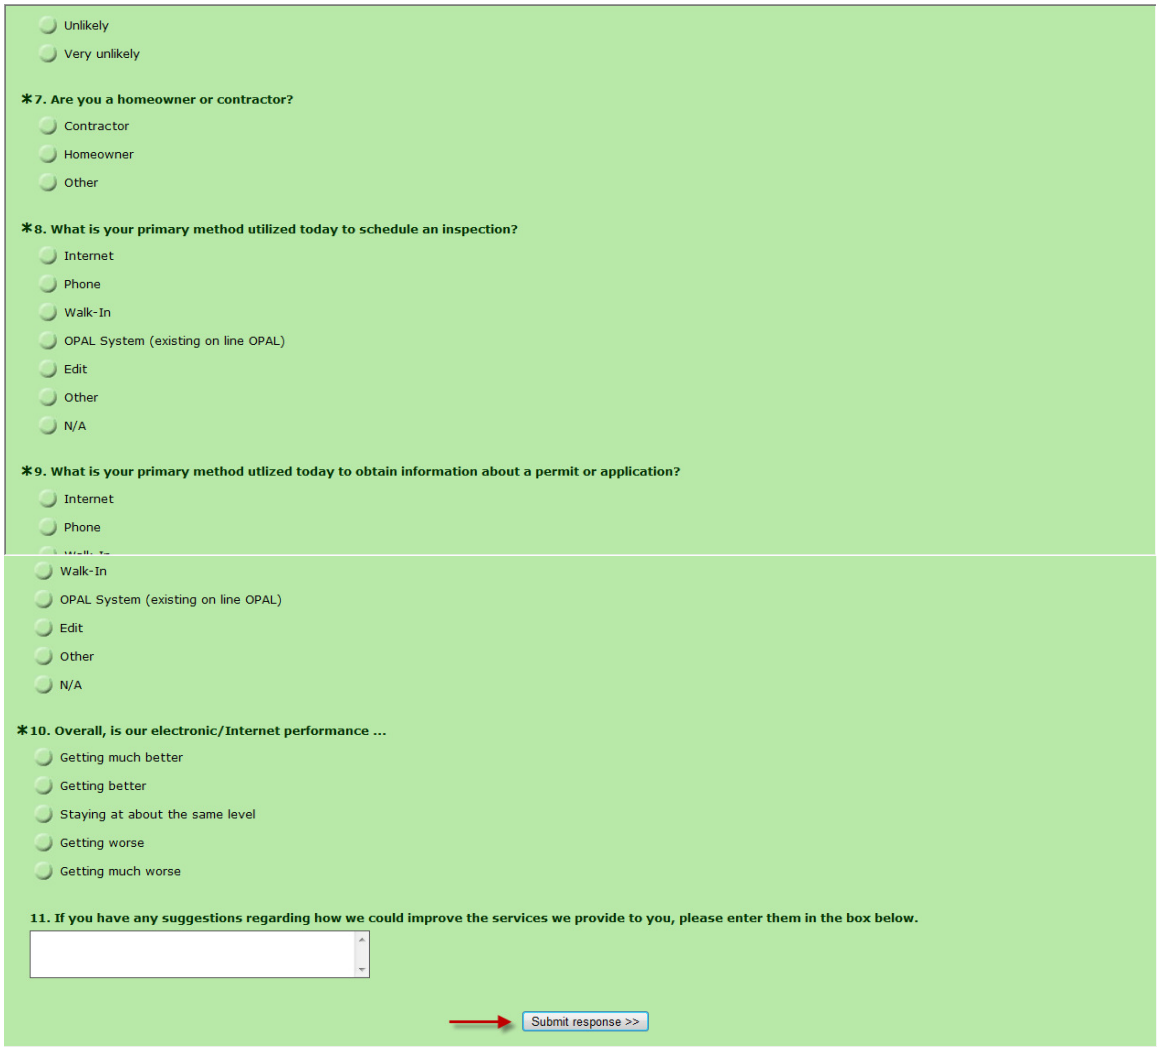
How Are We Doing?
We're committed to monitoring the quality of the services and products we provide, as part of an ongoing improvement process. We would appreciate your feedback on our performance. (All submissions are anonymous.)
*1. What feature of Public Access to Permit Applications(PAPA) is MOST important ?
Permit Search and Display
Inspection Status/Results Display
Inspection Scheduling
Electronic Application Submission
View staff comments on previous electronic application submission
Other (add comments below)
Other (please specify)
*2. How often do you interact with the Development Services staff?
(Building Inspections, Permits & Development Info, Growth Management, Central Permitting etc)
Once a week or more
2 to 3 times a month
Once a month
Less than once a month
Never
3. What is your prefered method to obtain the status/result of a scheduled inspection?
Internet (using new feature in PAPA to see comments and results)
Phone (speak with someone at the County)
Phone (automated system such as IVR)
In person (go to County office location)
*4. Overall, how do you rate the features of Public Access to Permit Applications (PAPA)?
Excellent
Good
Adequate
Poor
Unacceptable
*5. Would you use IVR ? (automated phone system to obtain inspection status pass or fail of inspection request)
Yes
No
N/A
*6. Based on our performance, how likely is it that you will use Public Access to Permit Applications (PAPA) in the future?
Certain
Very likely



Once you have completed the survey, left click on the **Submit response** button, to forward your survey to our support staff.
